European Forum for Electronic Components and Systems (EF ECS) 2020 on 25-26 November 2020

This year the organizers of EF ECS have joined forces to bring all stakeholders together online in the virtual event on 25-26 November 2020. EF ECS 2020 gave participants a unique opportunity to engage with the leaders and enablers of Europe's Digital Economy by hosting a virtual exhibition to spaces, concentrated on learning about calls and funding landscape developments, latest technology trends and applications of Electronic Components and Systems, development of new project ideas and workshops.

NewControl project was represented in a virtual booth. The exhibition visitors could find out the main project goals, objectives, current stage and expected results. The project partner Eindhoven University of Technology represented the video – LiDAR on chip technology. Furthermore, there was an opportunity to communicate and to discuss with project partners representatives from AVL List GmbH, Eindhoven University of Technology and Teraglobus.

Mobility E. Lighthouse

The Mobility.E Lighthouse is a collaboration and networking platform of excellent projects to keep the European industry ahead of the global competition. It assists in the uptake of future relevant technologies for electric, connected, automated driving (ECAD) and mobility solutions that address societal challenges.

This autumn NewControl project was included in the Mobility.E Lighthouse collaboration and networking platform as one of eleven excellent projects to keep the European industry technologically advanced and competitive.

Upcoming events

- 12-13.01.2021** ECS Brokerage Event 2021
- 18-20.01.2021** HiPEAC 2021
- 20.04.2021** ESI Symposium in Veldhoven, Netherlands
- 27-29.04.2021** Smart Systems Integration Conference and Exhibition 2021 in Grenoble, France

This project has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No 826653-2
