European Conference on Connected and Automated Driving – (EUCAD), 20-22 April 2021

EUCAD 2021 Conference on Connected and Automated Driving is a high-level conference that brings together political leaders from the European Commission and the Member States with high-level industry representatives, knowledge institutes and road authorities.

This year the event was held virtually from 20 to 22 April 2021. The conference participants exchanged knowledge and experience in the most recent technological automated driving-related research, developments and policies.

NewControl website and flyer were presented in a virtual exhibition between other Mobility E. Lighthouse projects.

Important Events

NewControl 2nd Review

On the 24th of June NewControl Coordinating team, Work packages and Supply Chains leaders presented their main achievements of the second reporting period to Project Officer Anton Chichkov and experts Carol de Vries and Fredrik Dahlgren.

This event was a great opportunity to discuss the attainments of the consortium, the status of deliverables, and plans for the 3rd year of NewControl. According to the experts, the project has made significant progress. Work in Supply Chains and technical achievements show that we are moving in the right direction towards the main goal and objectives of the project.

NewControl New Coordinating Team

For the rest of the project implementation period, the project will be led by a new coordinating team from AVL: project Coordinator Darjan Kozic, administrative project Manager Jasmin Kniewallner and Coordinator Research Funding Corporate Strategy Reiner John.
