

## Latest NewControl Events

### The Autonomous Hybrid Main Event, 29 September 2021

On the 29<sup>th</sup> of September NewControl was presented at The Autonomous Main event in the Imperial Palace in Vienna, where the project partner TTTech Auto organized a workshop to discuss the role and importance that Research and Development play in the innovation process.

In the workshop, Mr. Reiner John from AVL presented NewControl and its challenges, upcoming results and importance in the Autonomous Mobility development processes. Sustainable mobility will be enabled by seamless digitalization and by trustful cooperation and collaboration among the different players in a complex system.

### NewControl Partners Meeting in Graz, Austria, 14-15 October 2021

After a long time, NewControl partners again had an opportunity to meet in a live meeting. On 14-15<sup>th</sup> of October, the project coordinating team - AVL invited SCs, WPs and Tasks leaders to come to Graz, Austria. Partners, who were not able to participate personally, had an opportunity to join virtually. The two-day meeting was scheduled to discuss the project's current status, the main technical achievements in SCs, the second review remarks and recommendations, dissemination and exploitations topics, and the following steps to be done.

As NewControl is in the third year, the upcoming period will be very technical. NewControl SCs partners will focus on demonstrators, increasing accuracy and robustness and developing platforms, which are a basis for forthcoming automatization. Furthermore, this year the consortium will put their efforts to show the exploitable results and the full impact of the project to the European industry and economy.

This meeting was full of productive discussions, correct remarks and valuable advice. Working together as a team, we always do and achieve more.

## Upcoming events

**16-18.01.2022** HiPEAC 2022

**17.03.2022** Industry Strategy Symposium Europe (ISS Europe)

**14-23.03.2021** Design, Automation, and Test in Europe (DATE) Conference 2022

**27-29.03.2022** Machine Learning Prague 2022

**26-28.04.2022** Smart Systems Integration Conference and Exhibition 2022
